

I recently had the privilege to visit with Raoul Pal, the founder of Real Vision, to discuss a variety of topics including:

- *The risk of recession in the U.S.*
- *What Trump's nomination of Judy Shelton to the Fed means.*
- *Can you have a gold standard AND zero interest rates.*
- *The future of the ECB and monetary policy in Europe*
- *The real value of gold.*

After we stopped rolling tape on the interview Raoul and I kept going and discussed Facebook's Libra, crypto currency, and how much you should own. The cameras kept rolling so we have a great bonus clip for you. **Check out the new FREE version of Real Vision at www.realvision.com/free** I hope you enjoy our interview with Raoul Pal.
