

Podcast With Sara Grillo: Are We Still A Capitalist Nation

I recently joined my friend, [Sara Grillo](#) for a conversation about capitalism, and whether we are still a capitalist nation. From Sara's website: *"In this podcast we contemplate whether or not the United States is still a capitalist nation. My guest, [Lance Roberts](#), is the chief investment strategist at RIA Advisors. An RIA with \$900MM in AUM. He is also, the editor-in-chief of [ReallInvestmentAdvice.com](#), a weekly subscriber-based newsletter distributed nationwide."* **We explore what capitalism is. How it works. And why it seems like "capitalism has failed," given the rise in demands for more "socialistic" policies.**
