

TYL, LMND - positive

BUY

- TYL broke out from its 2022 downtrend in July. TYL is now 21% off of its June low, but is still down 35% from its December 2021 highs. The zoom chart reveals that the recent 13% decline puts TYL at support from its new 2-month uptrend line. TYL is also repeating a pattern that has occurred 3 other times in the past 10 years; a long-term rally from a weekly oversold position.

RRG analysis shows that TYL has made a move from the Lagging quadrant, through the Improving quadrant, and is just entering the Leading quadrant. TYL was a Top 20 stock in this week's TPA-RRG report. (see the TOP 20-Bottom 20 RRG below).
